audiescreen

audiebant

Elementary Technology

Audiescreen delivers instant, high-visibility alerts straight to computer desktops or connected digital screens, ensuring your critical messages are seen immediately, even in the busiest environments.

Whether it's a lockdown, evacuation or essential announcement, **Audiescreen** puts vital information front and centre with the ability to override all open windows on Windows, Mac and Linux systems.

Key Features

Instant Visual Alerts
Send urgent messages that appear on-screen above all other applications

Zoned Messaging
Target specific buildings, departments, or groups for accurate communication

Custom Alert Display
Choose full-screen takeover, ticker bar or smaller pop-ups based on urgency

Message Acknowledgement
Alerts can be tailored to request acknowledgment for adding accountability

Auto-Close Option
Alerts can close automatically if acknowledgment isn't required

Full Admin Portal
Manage zones, devices and message delivery via full management

Multilingual Visual Alerts
Display messages in multiple languages to suit diverse teams

LDAP Integration
Lightweight Directory Access Protocol integration with existing systems

Rules-based Configuration
By utilising a selection of rules, from IP ranges, subnets and MAC addresses, easily broadcast alerts to the right place

Chrome Browser Extension
Integrate **Audiescreen** with your chrome books via our dedicated chrome extension

Geofencing
Zoning enables auto check in/check out of portable and moving devices
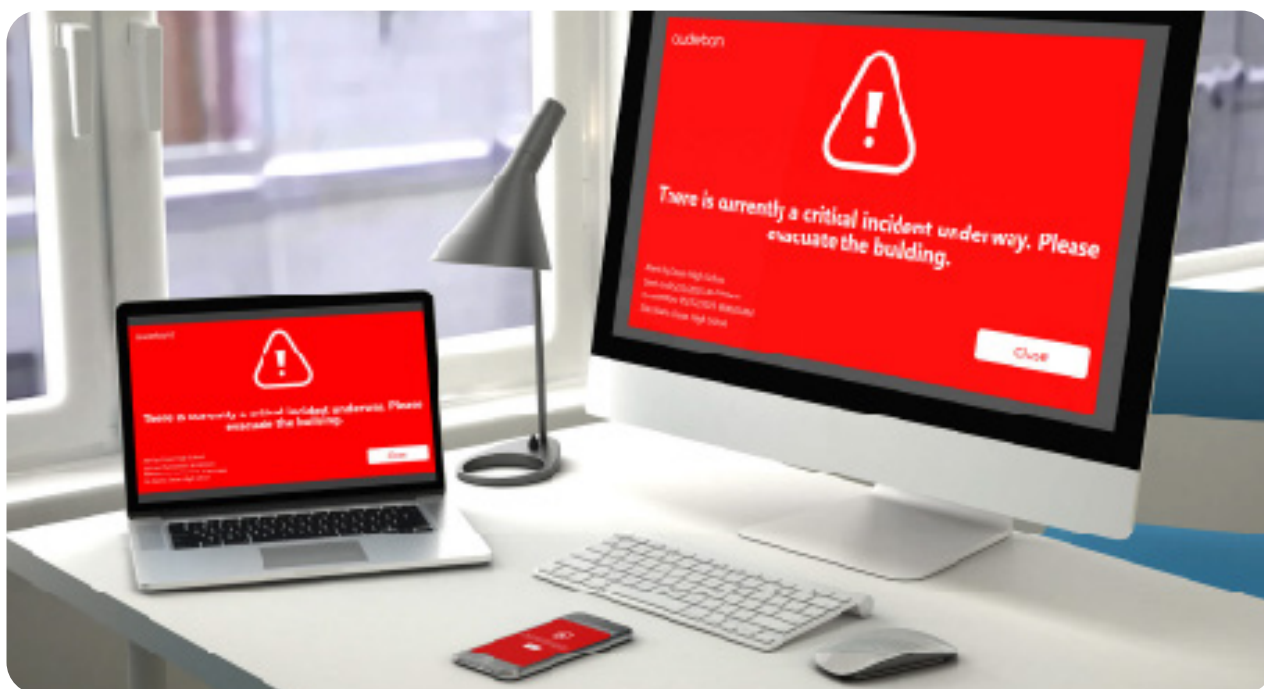

audiebant | Elementary Technology

How It Works

- Authorised users can create alerts from mobile app and computer

- Devices in the targeted zone display the message immediately

- User acknowledges the alert or it auto-closes, based on settings

- All data is logged for tracking and compliance

Why Audiebant?

At Audiebant, we believe communication should be seamless, intelligent and reliable. As a global technology company, we specialise in unifying audio, visual and mobile alerts into one powerful system ensuring people stay safe, informed and connected.

Our scalable, user-friendly solutions are trusted by organisations across education, healthcare, government, transport, events and commercial sectors, delivering the right message, in the right place, at the right time.

audiebant
control

Audiebant Control is the central hub of the Audiebant system, working hand in hand with Audiescreen to keep communication fast, secure and effective. From urgent site-wide alerts to routine updates, authorised users can broadcast instantly to desktops and digital screens, all from a secure mobile app or web portal.

Built for real-world responsiveness, Audiebant Control supports iOS and Android devices, enabling communication on the move as well as from the control room. Messages can be zoned to target specific groups and areas, triggered using pre-configured alerts for time-critical action or sent as live announcements.

With secure authentication, a cloud-connected platform and real-time response logging, Audiebant Control ensures your critical messages are always delivered to the right people, in the right place, without delay. Together with Audiescreen, it provides a unified solution covering both safety and everyday communication.
