Helping schools use technology to deliver better education

ActivPanel 10 Premium

Simplicity

Simply plug and play to bring interactivity to your lesson content - all hosted from your device, or through one of the OPS units available. With upto 50 points of touch, students can interact directly on your device.

Adaptability

Combining superior audio, 8-array microphone and the optional ePTZ camera, interacting with students inside and outside the classroom is simple and engaging.

Connectivity

With a wide variety of ports, the ActivPanel 10 Premium is compatible with most devices. With upto 100W power delivery via USB-C, one cable can do power, audio, visual and touch.

Security

With no OS on the panel, there is no reliance on updating your device to maintain it's working ability. This increases activity time and maximises student learning.

Longevity

With no built-in operating system that requires updating, ActivPanel 10 Premium is designed to last alongside your current and future devices.

"The display on the ActivPanel 10 Premium is incredibly bright with vivid colours, helping resources to stand out. Our team love the ease-of-use and adaptability."
