AVerVision M15W
Mechanical Arm Wireless Visualiser

AVer™

Key Features

13-megapixel camera with 4K quality

The 13-megapixel camera delivers 4K Ultra HD 60fps output resolution, creating remarkably detailed images of any object. Enjoy breathtaking video with no lag.

Built for Distance Learning

The compact and lightweight design aids boundary-free distance learning. Rechargeable battery allows you to grab and go, and get online.
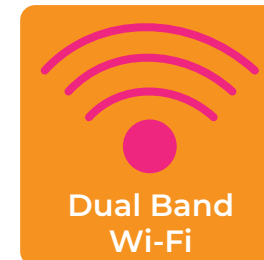

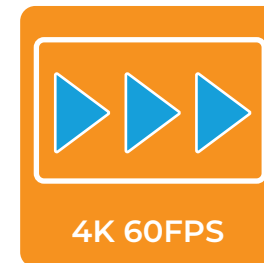

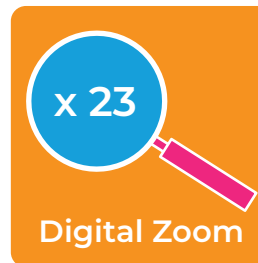

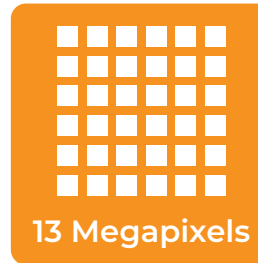

Flexible Foldable Arm

Allows you to capture A3 or larger papers, so you never need worry about upside-down images again. Thanks to the position indicator on the camera head, you can always rock an accurate and efficient display.

AVerTouch Software

AVerTouch is Aver's most powerful software. One touch connects the M15W with mobile devices for content sharing, and you can sync to the cloud to automatically save annotated, captured, and recorded files.

Wired or Wireless

You can visualise materials from multiple devices via USB or HDMI connections, or go wireless and take the device around the classroom to showcase work.
